## Overview

Enthusiastic and results-driven **Full Stack Developer** with a robust background in back-end development, specializing in Java. With a proven track record of delivering high-performance and scalable solutions, I bring a wealth of experience to the table. My expertise extends to the entire software development lifecycle, from designing and implementing robust server-side architectures to crafting seamless user experiences on the front end.

## Technical Skills

- **Back-End Technologies:** Java, Spring Boot, RESTful APIs, Microservices Architecture
- **Front-End Frameworks:** React, Angular
- **Mobile App Development:** Flutter, React Native
- **Database Systems:** MySQL, PostgreSQL
- **Version Control:** Git, GitHub, GitLab
- **Agile Methodologies:** Scrum, Kanban
- **CI/CD:** Jenkins
- **Testing:** JUnit, Mockito, TestNG

## Education

**Indian Institute of Information Technology Sonapat**  
Btech, CSE | GPA: 8.85 / 10.0

**Sonapat, Haryana**  
Aug 2019 – May 2023

## Work Experience

**Skillorex Pvt Ltd**  
Associate Software Developer

**Chandigarh**  
Aug 2023 – Present

- Led the front-end development of a web app aimed to provide quantitative and qualitative analysis of cards mainframe data and source code in the form of user-friendly automated batch flow charts and tables.
- Performed unit testing using **JUnit** framework to ensure the end-to-end functionality of the Complaints Management Systems (CMS), the primary complaints record system for customer care service providers.
- Implemented report generation functionality, enabling back-end teams to import and analyze raw data, optimizing complaint management processes for improved efficiency.

## Internships

**Amazon Development Center Pvt. Ltd.**  
SDE

**Gurugram, Haryana**  
Jan 2023 – July 2023

- Engineered the NAWS Service in **Java**, resolving the challenge of packet generation for US tax compliance. Successfully achieved a 90% reduction in development effort and time required for packet generation.
- Assumed a leadership role in the front-end development of this service, ensuring a cohesive and user-friendly interface.
- Additionally, authored comprehensive unit tests to validate the robustness and reliability of the developed solution.

**Red Positive (OPC) Service Pvt. Ltd**  
Java Developer  
Skills: Java, Spring Boot, Jenkins

**Jaipur**  
Jan 2022 – June 2022

## Projects

**Kreedagram**

September, 2020

- Created a full-stack web application with a secure authentication system using JSON Web Token (JWT) to ensure safe user login.
- Designed a cloud-based note storage solution accessible on all devices and organized with tags for efficient retrieval.
- Implemented features for users to create, update, and delete notes, offering a comprehensive note management solution.

## Certifications

- AWS Certified Developer
- Angular Js for Beginners
- Advanced Excel Course
- Learn web development using Django
- Developing in MEAN Stack

2022  
Spring 2020  
Fall 2020  
2020 – 2021
